ABSTRACT

This report presents statistical pictures of New York State public libraries and public library systems during the calendar year 1990. The information is derived from the 1990 Annual Report for Public Libraries and Annual Report for Public Library Systems forms. Three statistical pictures of public libraries are presented. First, statistics for libraries are grouped by library system or nonsystem, and facts about library operations for each public library are presented, including resources, use, and finances. Libraries are grouped by library system, then by county within each library system. Statistics for all branches and other outlets are included within the statistics for the main library. Secondly, statistics for all libraries and library systems are grouped by size of population and selected facts about library operations and finances by population size are given, from largest to smallest. Thirdly, statistics on whether public libraries meet the 1988 proposed minimum public library standards are provided. The libraries are then grouped by library system or nonsystem. Appended to the report are the annual report forms and instructions for public libraries and public library systems, codes for selected tables, keys to abbreviations, an index by county, and an index by library. # PUBLIC LIBRARY SYSTEMS

## PREFACE

*1990 PUBLIC AND ASSOCIATION LIBRARIES STATISTICS* is compiled from information supplied by public libraries and systems throughout New York State. Forms were sent by the New York State Library's Division of Library Development to the designated systems and libraries in November 1990 with the request for return by February 1, 1991. Ninety percent of the completed forms were returned by April 12, 1991, and the last report was received on July 12, 1991. Data were verified at system headquarters and at the Division of Library Development. The data were compiled on the Division of Library Development computer and the printouts thereof constitute statistical tables II, III, IV, V, and VII.

Statistics for the 733 libraries in systems are grouped by system in Table III and those for the two libraries which are not members of systems appear in Table IV. To help the user locate information on specific libraries, indexes of counties and libraries appear in appendices. Summaries of the 1990 statistics appear in Table II and are compared with those of earlier years in Table I.

Two new tables, Table VIII, *Library Types by Population Served* and Table IX, *Library Types by Public Library System*, provide information on the numbers and types of public libraries in New York State.

*Education Law* and *Commissioner's Regulations* require the submission of annual reports by all libraries and systems in order that they retain their registration status and be eligible for public funding. It is our hope that the publication of these statistics will be helpful to library administrators and staff, to members of governing boards, and to others who make decisions on library resources and services.

We thank all persons who supplied information and all who assisted in verifying, checking and compiling it. Accuracy is critical to the usefulness of this publication and notes of omission and errors are invited.

## FOREWORD

*"Libraries can be understood in many ways; by working in them, by visiting them, and by reading verbal and numerical descriptions of them. Numerical or statistical, descriptions condense factual information about many aspects of library operations and present the information in a variety of ways, each providing a different view of the total library picture."*[1]

This publication, *1990 Public and Association Libraries Statistics*, presents statistical pictures of New York State public libraries and public library systems during the calendar year 1990. The information is derived from the 1990 Annual Report for Public Libraries and Annual Report for Public Library Systems forms.

Statistics should be seen by librarians and trustees as tools and not as ends in themselves. The value of the statistics published here is that they can be used both internally and externally by the library's administration. Internally, the library's individual statistics can be compared to previous years' statistics as a way to track performance, to assess the success of the library's chosen goals, to set new service and management objectives, or to keep the library headed in its chosen direction. Externally the library's statistics can be compared to other libraries of similar size and environment to determine whether the library is above or below the average for its systems or population group, to justify library actions and budgets, to plan for library service, and to evaluate the library's progress.

Three statistical pictures of public libraries are presented in this publication:

1. Statistics for libraries grouped by library system or nonsystem.

Tables III A,B,C and Tables IV A,B,C present facts about library operations for each public library in New York State including resources, use, and finances. Libraries are grouped by library system, then by county within each library system. Statistics for all branches and other outlets are included within the statistics for the main library.

2. Statistics for all libraries and library systems grouped by size of population chartered to serve.

Table V lists selected facts about library operations and finances by size of population served, from largest to smallest.

3. Statistics related to proposed library standards.

Tables VI and VII provide statistics on whether public libraries meet the 1988 proposed minimum public library standards. Libraries are grouped by library system or nonsystem.

1. Portions of this section are adapted from *Illinois Public Library Statistics: A Guide for Librarians and Trustees, 1989-90.*

**Public Libraries**

The number of public libraries in New York State increased from 739 to 740 in 1990. The number of branch libraries totalled 336. Of these 740 chartered libraries, 738 are members of the 23 public library systems. Most public libraries in the State are small, as shown in the following table:

**Number of Public Libraries By Population Served**

| Population Size Served | # Of Libraries | # Of People Served | % Of Total Population Served |
|---|---|---|---|
| 0-999 | 91 | 53,109 | .3% |
| 1,000-2,499 | 167 | 276,532 | 1.7% |
| 2,500-4,999 | 136 | 487,087 | 3% |
| 5,000-7,499 | 76 | 465,395 | 3% |
| 7,500-24,999 | 166 | 2,404,827 | 15% |
| 25,000-99,999 | 91 | 3,805,258 | 23% |
| 100,000+ | 13 | 8,836,838 | 54% |
| TOTAL | 740 | 16,329,046 | |

Some 64 percent of the libraries (470) in the State serve a population of fewer than 7,500 people. In the aggregate, these 470 libraries service 1.3 million people, or 7.3 percent of the State's population. On the other hand, three libraries - the Brooklyn, The New York and the Queens Borough public libraries - serve more than 40 percent of the population of the State.

In 1990, the total public library operating expenditure in New York State was $521 million. The main financial support for public libraries in New York State comes from local public funds ($386.5 million in 1990). The average per capita expenditure for public library service (including that for public library systems) in 1990 was $29.70.

**New York State Public Library Income 1990**

| | Income (in millions) | Percent | Per Capita |
|---|---|---|---|
| Local | $386.5 | 72% | $22.01 |
| State | $ 58.8 | 11% | 3.35 |
| Federal | $ 4.5 | 1% | .26 |
| Other | $ 86.8 | 16% | 4.94 |

The Regents of The University of the State of New York charter (i.e., incorporate) the public libraries. A library serves a village, town, city, county, school district, a combination of these units, or in exceptional cases, a special library district established by the Legislature. Tables XIII and IX give a breakdown of library types by population served and by public library system. The four major types of public libraries in the State are:

**Municipal** Created by a village, town, city or county government or combination thereof.

**Association** Created by a membership association. May contract with a unit of government or a school district to provide library services.

**School district** Created by vote of the school district electorate or a city board of education.

**Special district** Created by the State Legislature to serve a part of one or more municipalities.

**Public Libraries by Type, 1990**

| | Number | Percent |
|---|---|---|
| Municipal | 210 | 28% |
| Association | 387 | 53% |
| School District | 128 | 17% |
| Special District | 15 | 2% |
| **TOTAL** | **740** | **100%** |

**Public Library Systems**

The 23 public library systems authorized by Education Law have as members all but two of the 740 public libraries in the State. Five of the public library systems (Brooklyn, Buffalo and Erie, The New York Public, Onondaga, and Queens) are public libraries as well as public library systems. The Board of Regents charters the public library systems, which operate under plans of service approved by the Commissioner of Education.

State support for public library services is made available through the 23 public library systems. In 1990, reported State aid was $58.8 million. There are four types of public library systems in New York State:

**Consolidated systems** (3) Chartered as a single entity under a board of trustees (Brooklyn, The New York Public Library, Queens Borough).

**Federated systems** (4) Created by action of the board or boards of supervisors or legislature of the county or counties involved while member libraries retain their own charters (Buffalo & Erie, Clinton-Essex-Franklin, Monroe County and Onondaga County).

**Cooperative systems** (15) An association created by agreement of the boards of chartered member libraries, which retain their autonomy.

**Co-federated systems** (1) System formed through confederation of systems of different types (Chemung-Southern Tier).

Table II, *System Summary*, provides a summary of facts on the resources, financial support and use of public library services for each public library system and its member public libraries.

**Comparative Studies**

Table I, *Comparative Study* provides statewide summary data on public library services from 1957, 1988, 1989 and 1990 for comparison purposes. This table may be used to analyze increases and decreases in resources, financial support and use. Each edition of *Public and Association Library Statistics*, from 1966 to the present, contains comparison figures for the current reporting year, the two prior years and 1957. Further information on public library statistics is available from the Division of Library Development, New York State Library, 10C50 Cultural Education Center, Albany, New York 12230.

## REFERENCE NOTES

**TABLE I**

All 1957, 1988, and 1989 figures were taken from Table I, *Comparative Study, Public and Library Association Statistics*, for designated years. The year 1957 is used as the base year since this is the year preceding the 1958 State Aid Law, which provided for the establishment of the cooperative systems comparison.

The figures for "Population Served by Systems and Nonsystem Libraries" are taken from the *1980 Census of Population and Housing, Final Population and Housing Unit Counts*, issued March 1981, revised March 1983, U.S. Department of Commerce, Bureau of Census; school district population as prepared 5/14/84 by the New York State Data Center, NYS Department of Commerce, using the *Census of Population and Housing.*

State Aid excludes administrative costs of the New York State Library.

Adjusted Disbursements exclude Cash Grants to member libraries from the system Total Disbursements and disbursements for Contracts With Other Libraries from system and member library Total Operating Disbursements.

**TABLES VI & VII**

Table VI, *New York State Public Libraries and Public Library Standards - Comparison Chart* and Table VII, *System & Nonsystem Statistics Related to Proposed Library Standards* reflect data supplied by 740 public libraries in relation to proposed standards. The data in Table VI represent overall progress in meeting 1988 proposed standards for public libraries. It is important to note that for the purposes of this compilation a "nonresponse" was treated as a "no" response. More information on each of the proposed standards can be found in *New York State Public Library Service Minimum Standards, 1988.*

**GENERAL**

Brooklyn, New York, and Queens Borough include both system headquarters and branch libraries or central library on all tables.

Ulster County is served jointly by Ramapo-Catskill and Mid-Hudson Library Systems.

Central Libraries are designated by an asterisk (*) and Co-Central libraries by a double asterisk (**) on all tables.

The five-county Pioneer Library System was reconfigured in April 1990. The new Monroe County Library System serves public libraries in Monroe County. The new Pioneer Library System serves libraries in Livingston, Ontario, Wayne, and Wyoming counties.

A catastrophic flood closed the Newburgh Free Library from mid-October 1990 until mid-May 1991.

THE NEW YORK STATE LIBRARY
DIRECTOR, DIVISION OF LIBRARY DEVELOPMENT

November 1990

To: Directors of Public Libraries

From: Roberta G. Cade, Director

Subject: Youth Services Survey -- 1990

Your cooperation in filling out this brief questionnaire would be greatly appreciated. This information on circulation of juvenile books and juvenile and young adult programs will be used by the Division of Library Development to begin to establish the scope of youth services in relation to overall public library activities. We are frequently asked for this information by the Regents and by others interested in cooperative activities between public libraries and other institutions serving young people.

Data from this survey will be compared with related areas of the public library surveys done by the National Center for Education Statistics.[1] Public libraries can use the information to evaluate the level of service in relation to population, budgets, demographics, etc. Over a period of years, this information can be used to look at program growth, and cycles of usage by the community.

Please fill in the requested information from the data you have available for 1990. If you cannot supply this information because it is not available we will understand. These questions will be incorporated into the 1991 Public Library Annual Report. Please plan to collect this information in 1991, if you are not already doing so.

Thank you for your assistance with this. This form should be returned with your 1990 Annual Report.

## LIBRARY HOLDINGS AND CIRCULATION

From the 1989 Annual Report, transfer "Holdings, December 31, 1989", of all types of materials to the 1990 Annual Report, under "Holdings, December 31, 1989". If for any reason the figures on the 1990 report differ from those on the 1989 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report "Additions" and "Withdrawals" made between January 1, 1990 and December 31, 1990, and "Holdings" as of 12-31-90 under appropriate headings.

CIRCULATION - Report Circulation between January 1, 1990 and December 31, 1990 for each category of holdings as indicated. Circulation for home use should be accurately recorded. Count one for each loan of book, serial, or nonbook item on the appropriate line under book stock, serials collection, nonbook materials, etc. An item renewed under library rules should be counted as an additional circulation. Items loaned to schools or other institutions for circulation by the school or institution are counted as one circulation per item (the initial loan to the school or institution). Items sent from one agency of a library to another, i.e., from main library to a branch, are not counted as circulation.

**PAGE A-3**

BOOK STOCK - A library's collection of books (including paperbound books and microform) and other materials which is prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which have been cataloged as separates count as six titles; a set of books (i.e., an encyclopedia) cataloged as a set counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of Americana, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A library which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner.

1. Count the number of titles in 1 inch of shelflist.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication including microform, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings, and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. See also definitions of newspaper, periodical, serial, microform and government documents.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microform. See the Faxon serials catalog which lists bibliographic volumes for periodicals.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held as of December 31, 1990. Two subscriptions to the same serial count as one title.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION above) held in a serials section of the library and not counted as Book Stock. Other Serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

**PAGE A-4**

NONBOOK MATERIALS Those library materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling.

AUDIOVISUAL MATERIALS - Nonbook library materials, such as films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes and videodiscs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

| | |
|---|---|
| EXAMPLES: | A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical items and 1 Title.<br><br>A recording of CARMEN on three discs would be counted as 3 Physical items and 1 Title. |

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other Materials for the Print Handicapped (to be specified). List only materials actually owned by library. Do not report material on loan or deposit. Report Large Type books in Book Stock. See definition of talking book and Braille material.

PHYSICAL ITEMS - Number of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

TITLES - Number of TITLES of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

**PAGE A-5**

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified by the library).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

**PAGE A-6**

**PAGE A-7**

LIBRARY SERVICES

SERVICES FOR A TYPICAL WEEK - A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. Brief instructions are listed below. If you have an annual count, please divide the total by 52 weeks to report for a typical week.

ATTENDANCE IN LIBRARY FOR A TYPICAL WEEK - Report the total number of persons entering the library for a typical week including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS FOR A TYPICAL WEEK - Report the total number of materials utilized in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

REFERENCE TRANSACTIONS FOR A TYPICAL WEEK - Report the total reference transactions for a typical week.

REFERENCE QUESTIONS ANSWERED - Report the total number of reference transactions successfully completed by library staff between January 1, 1990 and December 31, 1990. See definition of reference transaction below.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

MICROCOMPUTER EQUIPMENT - Report quantity of microcomputer equipment in the library. Record the total number of microcomputers, modems, printers, and of the total microcomputers, indicate how many are intended for public use. Count only those microcomputers which have 48K (kilobytes) or more of memory. Count microcomputer hardware in all facilities operated by the library (i.e. branches, bookmobiles, reading centers), whether owned, leased or on loan from another agency.

## SUPPORT SERIES

Personnel listed in this series are the people who support in various capacities, the librarians and library technicians on the staff. According to the LIBGIS definition, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect". Other staff members, therefore, should be listed in the support series. Columns 1 through 5 should be answered in the same fashion as the instructions for the Librarian Series. For titles not listed, please specify under - "other". Use additional sheets as necessary.

### Clerical Staff Series

Titles listed are those found in NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service... (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

### Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, etc.

### Bindery Staff

Libraries which maintain a bindery should list the bindery staff as a subcategory of "Other Support Staff".

### Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

### Volunteers

List total number of volunteers working on a scheduled basis.

**PAGE A-10**

## ADDITIONAL PERSONNEL DATA

HOURS AND SALARIES - For questions 1, 3, and 5 report the number of hours for a typical work week in 1990. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours a full time staff person works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. A full time staff member in Library A works 38 hours a week.

For question 2, if the library does not employ a certified public librarian, insert a zero (0).

For questions 4, 5, and 6 if there is no set "annual" salary figure for the Library Director, then multiply the hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: In 1990, the director of Library B made $12.00 an hour and worked 25 hours a week. The 1991 current annual salary is ($12.00 x 25 x 52) or $15,600.

THE STATE EDUCATION DEPARTMENT THE UNIVERSITY OF THE STATE OF NEW YORK ALBANY NY 12234

THE NEW YORK STATE LIBRARY
DIRECTOR, DIVISION OF LIBRARY DEVELOPMENT

November 1990

To: Directors of Public Libraries

From: Roberta G. Cade, Director

Subject: Youth Services Survey -- 1990

Your cooperation in filling out this brief questionnaire would be greatly appreciated. This information on circulation of juvenile books and juvenile and young adult programs will be used by the Division of Library Development to begin to establish the scope of youth services in relation to overall public library activities. We are frequently asked for this information by the Regents and by others interested in cooperative activities between public libraries and other institutions serving young people.

Data from this survey will be compared with related areas of the public library surveys done by the National Center for Education Statistics.[1] Public libraries can use the information to evaluate the level of service in relation to population, budgets, demographics, etc. Over a period of years, this information can be used to look at program growth, and cycles of usage by the community.

Please fill in the requested information from the data you have available for 1990. If you cannot supply this information because it is not available we will understand. These questions will be incorporated into the 1991 Public Library Annual Report. Please plan to collect this information in 1991, if you are not already doing so.

Thank you for your assistance with this. This form should be returned with your 1990 Annual Report.

SYSTEM HOLDINGS AND CIRCULATION

HOLDINGS - Library materials to which the system retains title and which are not reported by a member library. This should include all materials given to the system under the Central Book Aid (CBA) program. This may also include materials secured through Federal programs such as LSCA and ESEA.

From the 1989 Annual Report, transfer "Holdings, December 31, 1989," of all types of materials, to the 1990 Annual Report, under "Holdings, December 31, 1989". If for any reason the figures on the 1990 report differ from those on the 1989 report, please footnote and explain the difference. Figures may differ because a new inventory has been taken, because a mistake was made in last year's report, etc. Report "Additions" and "Withdrawals" made between January 1, 1990 and December 31, 1990, and "Holdings" as of 12-31-90 under appropriate headings.

CIRCULATION - Report direct circulation to system headquarters staff and to patrons handled by the system. Do not include here materials sent to member libraries. Member library information is recorded on page A-6.

BOOK STOCK - The system's collection of books (including paperbound books and microform) and other materials which are prepared and recorded in the same manner as books. These books and materials must be cataloged and available for use. Foreign language books and books on rental shelves should be included in Adult (or Juvenile) Fiction or Nonfiction. Young Adult books should be included with the Adult collection.

Microfilm has been discontinued as a separate category in the Annual Report. Microform (microfilm, microcard, microfiche) is now included within the count of the various types of materials. For example, a microcopy of a volume of adult nonfiction is counted as a title and volume of Adult Nonfiction under Book Stock.

Documents which are fully cataloged and intershelved with books are counted as Book Stock.

Do not include bound periodicals in Book Stock.

TITLES - For this report, a title is a book holding for which a separate shelflist card has been made. Thus, six copies of the same edition of a book count as one title; two editions of the same title count as two titles; a set of six books which has been cataloged as separates counts as one title; and two sets of the same edition cataloged as sets (i.e., two sets of AMERICANA, 1972) count as one title. Enter the number of different titles held, added by purchases and gifts, and withdrawn.

A system which cannot easily count the number of shelflist cards (or physical items) in each category, may wish to establish a title count base in the following manner:

1. Count the number of titles in 1 inch of shelflist cards.
2. Repeat step 1 at random intervals throughout the shelflist.
3. Average the number of titles per inch.
4. Multiply the average titles per inch by the number of inches of cards in the shelflist.

After the base count is established make an actual count of titles added and withdrawn in subsequent years.

VOLUMES - Enter the number of volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of titles and the number of volumes in sets of books.

SERIALS COLLECTION - A serial is a publication including microform, issued in successive parts, usually at regular intervals, and as a rule, intended to be continued indefinitely. Serials include periodicals, newspapers, annuals (reports, yearbooks, etc.), memoirs, proceedings and transactions of societies; they may include monographic and publishers' series. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals.

BIBLIOGRAPHIC VOLUMES - A bibliographic volume is the unit established by the publisher as a volume. Enter the number of bibliographic volumes held, added by purchase and gifts, and withdrawn, including duplicate copies of volumes, regardless of whether the material is bound, unbound, or on microfilm or microcards.

CURRENT SUBSCRIPTION TITLES - Enter the number of different subscriptions held, added by purchase and gifts, and withdrawn. Two subscriptions to the same serial count as one title.

OTHER SERIALS - Enter here the current subscription titles and bibliographic volumes for serials other than periodicals and newspapers (see definition of SERIALS COLLECTION) held in a serials section of the library system and not counted as Book Stock. Other serials bought occasionally rather than on standing order and cataloged as Book Stock may be counted as Book Stock.

PAGE A-4

NONBOOK MATERIALS - Those system materials which do not meet the definition of a book or a serial, such as audiovisual materials, vertical file materials, and any other material the form of which requires special handling. Include items purchased with CENTRAL BOOK AID.

AUDIOVISUAL MATERIALS - Nonbook system materials, such as films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes and videodiscs which require the use of special equipment in order to be seen or heard.

PHYSICAL ITEMS - Number of reels of film, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

TITLES - Number of TITLES of films, filmstrips, slides, recordings (audiodiscs or audiotapes), videocassettes, or videodiscs held in collection.

MATERIALS FOR THE PRINT HANDICAPPED - Includes talking books, Braille material, and other materials for the print handicapped (to be specified). List only materials actually owned by the system. Do not report material on loan or deposit from another agency. Report Large Type books in Book Stock.

PHYSICAL ITEMS - Number of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

TITLES - Number of TITLES of audiodiscs or audiotapes, Braille volumes, and other materials held in collection.

EXAMPLES: A set of 25 slides called ART WORKS IN THE NATIONAL MUSEUM would be counted as 25 Physical Items and 1 Title.

A recording of CARMEN on three audiodiscs would be counted as 3 Physical Items and 1 Title.

**PAGE A-5**

OTHER NONBOOK MATERIALS - Includes pamphlets, documents, catalogs, manuscripts, sheet music, maps, pictures and photographs, framed pictures, microcomputer software, and other (to be specified).

DOCUMENTS - Government documents held in a separate documents section of the library are counted as Documents. Documents which are fully cataloged and intershelved with books are counted as Book Stock. Periodicals which bear a government imprint but are treated as part of the periodicals collection are counted as Periodicals. Documents held in vertical files with other ephemera are counted as Pamphlets.

**PAGE A-6**

INTERLIBRARY LOAN

INTERLIBRARY LOAN MATERIALS BORROWED FOR SYSTEM PATRONS should be used to record materials borrowed by the system, as the result of a specific author, title, or subject request, for use by the system headquarters staff or for patrons handled by the system. Include materials sent to branches. Do not include materials sent to member libraries.

INTERLIBRARY LOAN MATERIALS LOANED TO MEMBER LIBRARIES should be used to record materials sent to member libraries as the result of a specific author, title, or subject request made by an individual patron. Do not include rotating collections as a part of these figures. Do not include materials sent to branches.

INTERLIBRARY LOAN MATERIALS LOANED TO OTHER AGENCIES should be used to record intersystem requests for materials sent to other agencies outside of the system (i.e. other systems, other libraries) as the result of a specific author, title or subject request from that agency.

LIBRARY SERVICES - Brooklyn, Buffalo-Erie, New York - Branch and Research, Onondaga and Queens Public Libraries: Reply to all questions.

SERVICES FOR A TYPICAL WEEK - A typical week is a week in which the library is open its regular hours, containing no holidays. It is seven consecutive calendar days, from Sunday through Saturday, or whatever days the library is open during that period. It is recommended that libraries use the methods described in Output Measures for Public Libraries, 2nd edition (ALA, 1987) for counting attendance, in-library use and reference transactions. Please report all figures for the same week if possible. Brief instructions are listed below. If you have an annual count, please divide the total by 52 weeks to report for a typical week.

ATTENDANCE IN LIBRARY FOR A TYPICAL WEEK - Report the total number of persons entering the library for a typical week including persons attending activities, meetings, and those persons requiring no staff services.

IN-LIBRARY USE OF LIBRARY MATERIALS FOR A TYPICAL WEEK Report the total number of materials utilized in the library, but not checked out. Include reference books, periodicals, book stock, and all other library materials that are used WITHIN the library.

REFERENCE TRANSACTIONS FOR A TYPICAL WEEK - Report the total number of reference transactions for a typical week.

REFERENCE QUESTIONS ANSWERED - Report the total number of reference transactions successfully completed by library staff between January 1, 1990 and December 31, 1990. See definition of reference transaction below.

REFERENCE TRANSACTION - A reference transaction is an information contact which involves the knowledge, use, recommendations, interpretation, or instruction in the use of one or more information sources by a member of the library staff. The term includes information and referral service. Information sources include printed and non-printed materials, machine-readable data bases (including computer-assisted instruction), catalogs and other holdings records, and, through communication or referral, other libraries and institutions and persons both inside and outside the library. When a staff member utilizes information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again during this transaction.

Note: It is essential that libraries do not include directional transactions in the report of reference transactions. A directional transaction is an information contact which facilitates the use of the library in which the contact occurs and which does NOT involve the knowledge, use, recommendation, interpretation, or instruction in the use of any information sources other than those which describe that library, such as schedules, floor plans, handbooks, and policy statements. Examples of directional transactions include giving instruction for locating, within the library, staff, library users, or physical features, etc., and giving assistance of a non-bibliographic nature with machines.

MICROCOMPUTER EQUIPMENT - Report quantity of microcomputer equipment in the library. Record the total number of microcomputers, modems, printers, and of the total microcomputers, indicate how many are intended for public use. Count only those microcomputers which have 48K (kilobytes) or more of memory. Count microcomputer hardware in all facilities operated by the library (i.e. branches, bookmobiles, reading centers), whether owned, leased or on loan from another agency.

SUPPORT SERIES (PAGE A-10)

Personnel listed in this series are the people who support, in various capacities, the librarians and library technicians on the staff. According to the LIBGIS definition, a librarian is "a staff member doing work that requires professional training and skill in the theoretical and/or scientific aspect of library work, as distinct from its mechanical or clerical aspect". Other staff members, therefore, should be listed in the support series. Columns 1 through 5 should be answered in the same fashion as the instructions for the Librarian Series. For titles not listed, please specify under - "Other". Use additional sheets as necessary.

Clerical Staff Series

Titles listed are those found in NYLA Typical Class Specifications for Clerical & Supportive Staff Positions in Public & School Libraries Under Civil Service... (Revised November 1975). For civil service clerical titles not in the library series, such as secretary, stenographer, driver, film inspector, AV technician, etc. please specify under "other".

Other Support Staff

List other staff positions which do not fall under librarian, library technician, clerical series or building maintenance and operation. Some examples are: systems analyst, programmer, business manager, public relations person, accountant, secretary, driver, AV technician, etc.

Bindery Staff

Libraries which maintain a bindery should list the bindery staff as a subcategory of "Other Support Staff".

Building Maintenance and Operation Staff

List all custodial staff, building guards, etc.

Volunteers

List total number of volunteers working on a scheduled basis.

ADDITIONAL PERSONNEL DATA - Brooklyn, Buffalo-Erie, New York - Branch and Research, Onondaga and Queens Public Libraries: Reply to all questions.

HOURS AND SALARIES - For questions 1, 3, and 5 report the number of hours for a typical work week in 1990. A typical week is a week in which the library is open its regular hours, containing no holidays. Include all hours a full time staff person works, even if the library is not open to the public.

Example: Library A is open to the public 30 hours a week. In addition to working those 30 hours, the Library Director also works 8 hours a week when the library is closed to the public. A full time staff member in Library A works 38 hours a week.

For question 2, if the library does not employ a certified librarian, insert a zero (0).

For question 4, 5, and 6 if there is no set "annual" salary figure for the Library Director, then multiply the hourly salary by the number of hours worked in a typical week by 52 weeks.

Example: In 1990, the director of Library B made $12.00 an hour and worked 25 hours a week. The 1990 current annual salary is ($12.00 x 25 x 52) or $15,600.

This code applies to New York State chartered libraries or systems only.
